

DESCRIPTION

First-class recording with outstanding ergonomics

The Pocket Memo voice recorder takes dictation to a new level. Two microphones deliver superior audio quality for your dictations. Its robust yet lightweight stainless steel design offers perfect ergonomics for working over longer periods of time. Power saving features and a high capacity Li-ion battery offer extended recording time and easy charging through a standard USB connection.

Superior audio quality and design

Two microphones for superior stereo audio recordings. Convenient push-button for professional recording control. Robust stainless steel casing for extra durability

Enhance your productivity

SpeechExec workflow software for efficient data management. Large color display and clear user interface for easy, intuitive operation. Light sensor and Li-ion battery for extended use.

Designed for professionals

Priority setting for getting urgent jobs processed first. High recording quality in DSS and MP3 format

Optional docking station and foot pedal for hands-free dictation and transcription even without a computer.

Two microphones for superior stereo audio recordings

The built-in microphones always deliver superior stereo audio recordings. The crystal clear recordings are perfectly suitable for speech recognition.

Convenient push-button for professional recording control

The recorder is designed for single-handed operation of all recording and playback functions, allowing easy and quick file editing (insert, overwrite, append) via convenient push-button operation.

Robust stainless steel casing for extra durability

The asymmetrical and ergonomic shape fits perfectly into your hand. Its slim and lightweight design maximizes comfort, even when working over longer periods of time. The brushed stainless steel creates a robust and highly durable protective shell around the device.

SpeechExec workflow software for efficient data management

The SpeechExec software organizes the workflow of dictation files and resulting documents between author and transcriptionist, and allows you to monitor the status of your work

Large color display and clear user interface for easy, intuitive operation

The large full-color display offers sharp images, making it easier to see everything at first glance. The clear user interface is optimized for easy, intuitive operation.

Light sensor and Li-ion battery for extended use

The high-capacity Li-ion battery can be easily charged through a standard micro USB jack. The integrated light sensor guarantees extended battery life. The smart technology adjusts the brightness of the display, ensuring that your recorder will always be ready to work when you are.

Priority setting for getting urgent jobs processed first

With the included priority setting option, urgent recordings can be processed first. This makes sure important recordings are not overseen and helps you and your transcriptionists manage your workloads better.

High recording quality in DSS and MP3 format

The DSS format was developed for use in digital voice recorders, allowing a high compression ratio with little loss of quality. The DSS format also allows you to store additional information in the file header, which facilitates the organization and the transcription of dictation files. The MP3 format is the common audio format for consumer audio storage, as well as a de facto standard encoding for the transfer and playback of music on digital audio players.

Optional docking station and foot pedal for hands-free dictation and transcription even without a computer

The stable and practical docking station provides speedy charging and automatic transfer of your recordings to your computer. With the optional foot pedal connected, the docking station even enables hands-free recording and transcription without a computer.

TECHNICAL CHARACTERISTICS

Brand : PHILIPS

Part number : DPM6000/02

Connectivité :

Interface : USB

Audio formats supported : DSS, MP3, PCM

Audio recording formats : DSS, MP3

Battery capacity : 1000 mAh

Battery recharge time : 3 h

Battery technology : Lithium-Ion (Li-Ion)

Built-in microphone : Y

Built-in speaker(s) : Y

Cables included : USB

Card reader integrated : Y

Compatible memory cards : SD, SDHC

Depth : 123 mm

Display diagonal : 6.1 cm (2.4»)

Display resolution : 320 x 240 pixels

Display type : TFT

Headphone connectivity : 3.5 mm

Headphone out : Y

Height : 15 mm

Loudspeaker diameter : 2.8 cm

Mac operating systems supported : Mac OS X 10.10 Yosemite, Mac OS X 10.9 Mavericks

Maximum recording time : 30 h

Media types supported : Flash card

Microphone direction type : Omnidirectional
Microphone in : Y
Minimum RAM : 1024 MB
MP3 bit rates : 192 - 353 Kbit/s
Number of built-in speakers : 1
Operating relative humidity (H-H) : 10 - 90%
Operating temperature (T-T) : 5 - 45 °C
Output power : 200 mW
Packaging content : Pocket Memo digital voice recorder Memory card Rechargeable battery USB cable Pouch SpeechExec Dictate workflow software Quick start guide
Pouch : Y
Product colour : Black, Silver
Quick start guide : Y
Rechargeable battery : Y
Recording battery life : 30 h
Recording modes : Medium Play (MP)
Software CD : Y
USB mass storage : Y
Weight : 117 g
Weight (including battery) : 117 g
Width : 53 mm
Windows operating systems supported : Windows 7 Enterprise, Windows 8
