

DESCRIPTION

MEET. SCHEDULE. REJOICE.

WATCH PRODUCTIVITY SOAR WITH THIS IN- OR OUT-OF-ROOM TOUCH DISPLAY

The Poly TC10 touch control panel makes meetings more productive and allows users to easily schedule workspaces and conference rooms as employees find themselves in a more flexible working environment. Control video calls in the room and share content with a tap. Or use it outside the room to check vacancy and schedule any bookable space without interrupting the meeting inside.

EASIER ROOM SCHEDULING

BOOK YOUR NEXT MEETING IN AN INSTANT

Multi-color LED lights instantly let you know the vacancy status of the room before you even approach the door. And the clear, bright touch screen lets you schedule your next meeting space in seconds.

COMPLETE CALL CONTROL

INSTANTLY TAKE CHARGE OF CALLS AND ROOM VIDEO SYSTEMS

The large 10» high-resolution touch display of the Poly TC10 gives you instant control of your video calls and lets you share content with a tap. You'll get seamless access to your favorite cloud video apps on your room's video system. You can even integrate the touchscreen with Extron for added AV controls such as lighting, shades and more.

CLEAN, SIMPLE INSTALLATION

SET IT UP ANY NUMBER OF WAYS WITH EASE

The Poly TC10 looks sleek and professional from any perspective, whether you mount it on a wall or on glass, or set it on a table with its flexible, multi-position stand. Adjust it to your preferred angle for maximum visibility. And its single cable provides both power and connectivity, reinforcing its sparkling-clean profile.

USE IT ANYWHERE

MAKE ANY SPACE A MEETING SPACE

The Poly TC10 isn't just for video conferencing rooms. Mount it outside office nooks, huddle spaces, open-plan office cornersany spot you want to establish as a regular meeting area. It makes any space bookable and sets your teams up for success.

WE WORK EVERYWHERE THAT YOU DO

Poly video solutions make meetings a breeze. Use cloud video apps for a full experience with all the features you know and love. Or use standards-based SIP and H.323 compatibility to connect to different cloud video services throughout your day.
