

Nano - Slim security lock - Code

DESCRIPTION

To protect your office or mobile IT equipment from theft, MOBILIS® has designed this 1.8 m long, hardened steel security cable. It is compatible with all computers that have a security Nano slot (2.5x6mm). The cable consists of a four digit combination padlock, so that you can secure your device with one of 10,000 possible combinations. This cable withstands pressures of up to one tonne. The essential accessory for extra security, this security cable protects your IT equipment wherever you are.
