

DESCRIPTION

The PLANET IGUP-805AT media converter is equipped with an SFP fiber optic port and an RJ-45 Gigabit PoE high-power port, which can supply up to 30-W power to a PTZ camera, or a high-resolution camera. The fiber connection can reach up to 500 meters if you use multimode fiber and up to 10 kilometers if you use single mode fiber.

The PoE port is compliant with Dual-Band and 802.11a/c devices.

Specifications:

- RJ-45 Port: 10/100/ 100Mbps with PoE+ 30W injector
- PoE802.3at output, compatible with 802.3af
- Dual Speed SFP port for 100FX/1000SX/LX transceiver
- 6-pin terminator (24 or 48V) for alarm output and redundant power supply
- Dimensions: 135 x 87 x 32mm
- Can be installed on a DIN rail or wall-mounted
- Stands temperatures from -40°C to +75°C in operation

TECHNICAL CHARACTERISTICS

Brand : PLANET

Part number : IGUP-805AT
