

## DESCRIPTION

This optical smoke detector is specifically designed for air-conditioning control in server rooms. When smoke is detected, the LED light switches on and sends the information to the dry contacts of a monitoring central unit. Does not detect the temperature variations.

Specifications:

- Operation range: 40 m<sup>2</sup> space with a 7-meter height maximum
- Distance between two smoke detectors: 8 meters maximum
- DC 12V/ 35mA power supply via power adapter or central management unit

## TECHNICAL CHARACTERISTICS

Brand : HWGROUP

Part number : FDR26 OPTICAL SMOKE DETECTOR
