

Ultra HighSpeed HDMI cord with Ethernet- 2,0m

DESCRIPTION

HDMI Ultra HighSpeed with Ethernet cord especially design from HDMI 2.1 applications with 4K, 8K, and 10 K resolutions (10K with DSC technology)

The great 48Gbps bandwidth allows the following new features :

- VRR : Variable Refresh Rate
- QFT : Quick Frame Transport
- QMS : Quick Media Switching
- ALLM : Auto Low Latency Mode
- Dynamic HDR : improvement of the existing HDR/HDR10 technologies introduced with HDMI 2.0
- DSC 1.2a : Data Stream Compression 1.2
- eARC : enhanced Audio Return Channel

Key features :

HDMI type A plugs 19 pins golden plated
HDMI cables with 48Gbps speed
Supports 8K and 10K (10240 x 4320) resolutions

Technical specs :

- . Improved lifetime due to golden plated plugs
- . 48Gbpsbandwidth
- . 4K@120 ips and 8K@60ips resolutions native (8K and 10K possible @ 120 ips with DSC 1.2)
- . Backward compatibility with previous HDMI versions

TECHNICAL CHARACTERISTICS

Brand : GENERIQUE

Part number : ECF-128879
