

# DACOMEX Communication Headset with Voice tube- Binaural

## DESCRIPTION

This professional call center telephone headset is designed for intensive use, up to 6 hours per day. The DACOMEX headset Pro is equipped with a telescopic voice tube. It has an ultra sensitive antistatic protection system providing noise cancellation even in noisy environments.

The voice tube microphone can rotate up to a 330 degree angle, so that you can use it on either side of your face.

The headset is compliant with the International standard for audio protection, while offering crystal clear sound quality. The Quick Disconnect / RJ-9 cord can be connected to the telephone plug or audio jack. The QD cord can be adapted to other devices with optional adapter cords (smartphone, USB device, computer)

Product features:

- Binaural style headset (ambidextrous)
- RJ-9 connector
- Quick Disconnect function (compatible with JABBRA)
- Click-stop headband for superior comfort
- Antistatic microphone with telescopic tube
- Anti-perspiring ear pads
- Compliant with the International hearing protection standard
- Cable length from RJ-9 to QD: 80 cm (not extended)
- Cable length from QD to headset: 90 cm
