

Long USB3.0 booster cable cascadable to 30 m- 10 m

DESCRIPTION

You can install a USB3.0 device at a greater distance from your PC while keeping a performing data transfer rate. Just connect the USB3.0 booster cable to a USB3.0 port of your computer.

This hot-plug cable does not require any software installation.

Connect the HDD to the USB3.0 extension cable with its original USB3.0 cord.

The USB3.0 booster cable is a repeater that enhances the signal and sends it both ways from the host to the device and vice/versa.
