

DESCRIPTION

Good sound quality is critical if you want to have a productive video conference. However, it isn't easy to find. Most video conferencing systems focus on video, with a good or even excellent display and camera. But their loudspeakers are often nothing more than a small table unit with low audio quality. Vogels developed a unique range of loudspeakers, especially designed for video conferencing. Our speakers give you a truly high-quality voice audio experience to match the video quality.

The core of the loudspeaker is the built-in Digital Sound Processor (DSP), which makes the loudspeaker sound like your video conferencing partners are actually in the room with you. Nearly all traditional loudspeakers are optimised for music reproduction. In contrast, our speakers with a DSP are tuned for natural-sounding speech. Even the positioning of your video conferencing partners is clear due to the stereo set up. The Vogels video conferencing loudspeakers are available in several sizes, optimised for smaller and larger rooms.

TECHNICAL CHARACTERISTICS

Brand : VOGEL'S
Part number : 7243070
AC input frequency : 50 - 60 Hz
AC input voltage : 110 - 240 V
AirPlay : N
Audio output channels : 1.0 channels
Connectivity technology : Wired
Depth : 125 mm
Harmonized System (HS) code : 85182200
Height : 91 mm
LED indicators : Status
Manual : Y
Mid-range driver diameter (imperial) : 6.98 cm (2.75«)
On/off switch : Y
Package depth : 875 mm
Package height : 170 mm
Package weight : 5.5 kg
Package width : 240 mm

Product colour : Black
Soundbar weight : 5.5 kg
TV stand usage : Y
Warranty card : Y
Width : 700 mm
