

# LocknCharge CarryOn USB-C Power Delivery Charging Station for 5 devices - Black

## DESCRIPTION

5x iPad/Tablets <10.5" - FR/UK/EU

The first ultra-portable charging station. Charge, store, secure, and transport up to five iPads or tablets.

### Benefits

- The first ultra-mobile charging station on the market
- Wall-mounted installation (with the included mounting kit)
- More efficient and intelligent charging with USB-C Power Delivery (up to 5 devices simultaneously)
- Compatible with most iPad and tablet models (or other devices using USB-C Power Delivery)
- Lightweight and durable charging case thanks to its robust aluminium structure
- Integrated handle for optimal carrying comfort
- Robust warranty

### Smarter equipment

- Intelligent USB-C Power Delivery charging. With a maximum power of 100W per port, you can charge 5 devices simultaneously as quickly as one at a time.
- Compatibility. The CarryOn case is compatible with most iPad and tablet models as well as most devices using USB-C connection.
- Ultra-mobile. The CarryOn is designed to be the easiest mobile charging station to move on the market. Lightweight, its compact size coupled with the integrated carrying handle offers unparalleled mobility.
- Wall-mounted installation (mounting kit included). The CarryOn includes a wall mounting kit that allows you to easily store and secure devices on the wall.
- Ultra-mobile. Compact. Easy to use. LocknCharge products have always been synonymous with unique perspectives in the physical management of mobile devices. The CarryOn embodies this philosophy by offering mobility never before achieved. The CarryOn allows you to transport five devices with all charging cables and accessories in a compact case. This product is ideally suited for the use of mobile devices in schools, universities, libraries, or for mobile professionals.
- Modern design. Quality manufacturing. The CarryOn is much more than a beautiful product. The external aluminium shell provides lightness and durability for optimal protection of the equipment stored inside. The transparent plastic door allows easy verification that no device is missing, while the shock-resistant PCABS coating gives it a sophisticated aesthetic. The aluminium handle is both robust and ergonomic for comfortable transport.
- A familiar yet unique concept. Designed to accommodate tablets from 7" to 10.5" as well as devices equipped with protective cases. The thick plastic access door of the CarryOn has a key lock for optimal protection against theft of the equipment stored inside.

The CarryOn can also be secured to the wall with the mounting kit included in the packaging.

-Robust warranty. LocknCharge products are built to last.

-Attractive design. The ultra-mobile CarryOn charging station is available in black.
