

DESCRIPTION

High-speed fiber to copper gigabit converter with 30W PoE+ injector: The converter is ideal for IP cameras or Wi-Fi dual-band hot-spots remote installation.

Specifications:

- On the fiber side: 550nm for multimode and 10 km for single mode link
- On the copper side: self-powered Data+Power 1000Mbps over 100 m.
- PoE+ IEEE802.3af/at active injector (PSE 30W)
- Compatible with Class 3/4 IP PoE cameras
- Fiber optic port: SFP slot for MiniGBiC module insertion (1000SX or 1000LX)
- RJ-45 Port: 10/100/1000 with Auto MDI/MDI-X function/ MidSpan PoE 4/5(+), 7/8(-)
- External power supply included: 110/230V-52V DC 0.58A
- Dimensions: 26 x 70 x 94mm
- Weight: 210g

TECHNICAL CHARACTERISTICS

Brand : PLANET

Part number : GTP-805A
