

LocknCharge FUYL Tower 5Mk2 (EU) Classic Cloud Bundle 1yr

DESCRIPTION

For Laptops and/or Tablets - EU

With the smart locker FUYL Tower from LocknCharge and its Cloud software (1-year licence included in the price), enjoy a complete solution for charging, storing, securing mobile devices, and efficiently managing operational workflows.

Make your life easier with LocknCharge smart lockers and LocknCharge Cloud software

=> LocknCharge smart lockers help organisations achieve their goals by saving considerable time managing mobile devices. Our secure charging towers are designed to make users' lives easier and automate the management of mobile devices (iPads, tablets, Chromebooks, laptops).

Smarter management of mobile devices for all operational workflows.

-Automate mobile device management

-Minimise device downtime

-Implement device management without human interaction

-Provide a secure charging and storage solution for devices, available on-demand or self-service

Manage user access to the towers through external directory integration.

=> Integrating your organisation's Active Directory or any other LDAP-compatible directory simplifies and centralises user access control to FUYL Towers. This integration enhances security, speeds up deployment, and facilitates user and group management for the Towers. Alternatively, you can use the LocknCharge Cloud user manager to manually add and administer users.

Charge and store devices securely for continuous availability.

=> All bays contain a 240V power outlet and a USB-C Power Delivery port (36W per port). You can safely charge iPads, tablets, laptops, mobile phones, Chromebooks, etc.

Manage multiple towers from a single, centralised web portal.

=> Provide designated Cloud administrators with detailed access to view and manage several smart lockers.

Integrate the LocknCharge Cloud into third-party systems.

=> Enjoy a higher level of device management. With the Cloud API and "webhook" function, the LocknCharge Cloud can be integrated into external and/or existing IT infrastructure.

Cabinet management from the Cloud

=> The LocknCharge Cloud licence provides access to the management web portal. The initial subscription is included with each FUYL Tower.

Dimensions of FUYL Tower 5 and 15 individual charging lockers: 73 (H) x 365 (W) x 438 (D) mm.

FUYL Towers can accommodate and charge almost any device, with or without protective cases. Charging Chromebooks, laptops, MacBooks, tablets, iPads, and more.

Robust warranty. LocknCharge products are built to last. Thanks to the welded steel design, this charging cabinet offers maximum security. For even more peace of mind, we guarantee our products for 10 years.

The knowledgeable and enthusiastic LocknCharge team is here to help you resolve any issues and answer all your questions.

TECHNICAL CHARACTERISTICS

Brand : LOCKNCHARGE

Part number : LNC10210

Design :

Type : Portable device management cabinet

Caractéristiques :

Certification : CE

AC input frequency : 50/60 Hz

AC input voltage : 110 - 240 V

Depth : 480 mm

Device connectors supported : AC

Height : 593 mm

Locking : Y

Manual : Y

Number of devices supported : 10

Number of shelves : 5 shelves

Operating temperature (T-T) : 0 - 50 °C

Output current : 2.4 A

Output voltage : 5 V

Placement : Floor, Wall

Product colour : Black, Grey

Slot height : 7.3 cm

Slot width : 36.5 cm

Supported portable devices : Notebook, Tablet

Weight : 35 kg

Width : 528 mm
