

DESCRIPTION

The PLANET FGSD-1008 HPS is an Ethernet switch, which can be managed by web browser. It has 8 x 10/100Mbps PoE+ ports, supplying up to 30 W power each, and 2 x Gigabit SFP/ TP combo ports.

The PLANAT FGSD-1008HPS was designed for small CCTV installations which include a stand-alone NVR with web-based remote access.

The advanced functions provide smooth and flawless video flows and recording quality, including web-based streaming.

The PLANET FGSD-1008HPS is an indispensable device, for professional installations with cost-saving expense, which require remote video access.
