

Eaton HotSwap MBP HW

DESCRIPTION

The Eaton HotSwap MBP series is made of versatile, flexible 2U PDUs designed to add high availability to UPSs up to 3,000 VA. Any UPS connected to a HotSwap MBP can be replaced for maintenance or upgrade purposes without interrupting the power supply to the protected devices. As a unique feature, they can be screwed at the back a Pulsar UPS, either front-facing or rear-facing, on the left or right hand side, for maximum versatility. They offers multiple mounting options for rack enclosures, wall mounting or connection at the rear of a UPS, whatever its brand.

TECHNICAL CHARACTERISTICS

Brand : EATON

Part number : MBP3KIH

Form factor : Rackmount

Harmonized System (HS) code : 85078000

Operating temperature (T-T) : 0 - 45 °C

Output power capacity : 3 kVA

Product colour : Black

Rack capacity : 2U
