

USB2.0 sharing switch - 2 ports

DESCRIPTION

Allows 1 USB printer to be connected with 2 computers.

2 ways for switching:

1) Push button on top of device

2) Hotkey sequence (Windows OS only)

The hotkey sequence allows you to toggle without dealing with the console.

The printer is being sensed by the USB PC bus and printing is being enabled.

Manual operating on any USB-port computer and automatic operating on all USB2.0 Windows supporting OS (98SE/ME/2K/XP)

1 AB USB2.0 2-meter cord included for printer connecting

2 AB USB2.0(3-meter maxi)-cord for computer connexion not included.

TECHNICAL CHARACTERISTICS

Brand : ATEN
Part number : US221A-AT
Main features :
Gender of connector A : Female
Gender of connector B : Female
