

Hdmi high speed cord with ethernet with chipset - 7,5 m

DESCRIPTION

WARNING! Due to the chipset, this calbe has only one plugging way. Please respect the indications "INPUT" and "OUTPUT" stickers near each connector.

HDMI® HighSpeed cable with Ethernet with digital signal amplification.

- 18Gbps Bandwidth
 - Resolution 4K 2:0 subsampling with 16 bits colordepth or 4:4:4 over 8 bits
 - Ethernet channel
 - Audio Return Channel
 - Golden plugs connectors
 - Chipset for signal processing : maintain all the HDMI 2.0 specifications even with long length
 - HDCP 1.2 compatible
 - Bundled with external power supply from USB.Should be used especially if this cable take place in a system using stacked elements : HDMI splitters, stwiches...
- Those elements sometimes don't provide the 5V power required on their pin #18 output , and the chipset of the cable may not have enough power for optimal operation.

TECHNICAL CHARACTERISTICS

Brand : GENERIQUE

Part number : ECF-128939

Main features :

Connection type : Cable

Signal : Audio/ Video

A Connector type : HDMI

B Connector type : HDMI

Gender of connector A : Male

Gender of connector B : Male

Length (m) : 7.5

Colour : Black
Secondary features :
Type : High Speed / Ethernet 2.0
Connector type : Straight
Ferrite beads : No
Material : Gold
Amplified : Yes
