

Dacomex Wireless headset Bluetooth Monaural W/ USB-A Stand

DESCRIPTION

Single earbud BlueTooth wireless headset!

The Dacomex DXBT5-1SPK is a robust Plug&Play headset that will be your best ally in your office or when teleworking. Multipoint design, it can be paired with two devices simultaneously, PC/Mac and Smartphone and its range of 30 meters ensures extended mobility.

Clear sound in any work environment. Thanks to a noise-canceling microphone and DSP technology, this device guarantees crystal-clear sound in any working environment.

The microphone boom is retractable and adapts to each user to perfectly capture their voice.

Its monaural design allows you to stay attentive to your surroundings. Its imitation leather pad makes the Dacomex DXBT5-1SPK a comfortable headset that allows you to use it a lot part of the day without discomfort.

Its battery has a lifespan of 20 hours and can be recharged in less than 120 minutes.

You will never miss a call. It has many features such as: an indicator light to avoid interruptions, LED indicators, a mute function on the boom, the ability to hang up and take calls from the headset, as well as volume control.

The Dacomex monaural headset is practical and is the basic tool for your teleworking.
