

Master Key for T Lock - Slim Rotating security lock cable 0

DESCRIPTION

The Master key for MOBILIS® security cables is very useful for companies that have a wide range of computer equipment, for example. In fact, thanks to this Master key, your IT manager can unlock all compatible security cables. In this instance, these are hardened steel key security locks for Nano slot reference 001326 and 001327. This secures all your office or mobile IT equipment and therefore protects you against theft.
