

DESCRIPTION

Always in the perfect position

The 2 pivot points enable you to work in a perfectly ergonomic way at all times. It is extremely easy to set the ideal screen position. As part of MOMO Motion Plus, the monitor arm comes with OneFinger Movement. This is an agile spring system that lets you move the monitor to any position with just one finger. No longer having the monitor on the desk also means that there is much more space to work ergonomically.

A monitor arm that is quick and easy to install
The MOMO 4126 Monitor Arm is specially designed for wall-mounted monitors.

The arm has a convenient built-in weight indicator so that you can adjust the balance of the monitor perfectly.

This monitor arm complies with the strictest international safety requirements
Safety first. The MOMO 4126 meets TÜV, FIRA and IGR requirements and is therefore extremely safe.

The rotation stop in the lower arms also prevents cable breakage and damage to screens and walls.

Easily tuck all cables away inside your monitor arm
The cable slots hidden in the arms provide enough room for several thick cables. The cables remain perfectly in place with the stainless steel clips. The workplace always looks neat and tidy with the MOMO monitor mounts.

All in all, the MOMO 4126 increases your comfort at work and creates a healthier and more productive working environment.
MOMO, the monitor mount that works everywhere.

Vogels. For Sure.

TECHNICAL CHARACTERISTICS

Brand : VOGEL'S

Part number : 7141260

Design :

Certification : TÜV

Adjustable depth : Yes
Height adjustment : Yes
Maximum screen size : 109.2 cm (43»)
Maximum weight capacity : 10 kg
Minimum screen size : 25.4 cm (10»)
Mounting hole range : 50 - 100 mm
Mounting type : Wall
Number of arms : 1
Number of displays supported : 1
Number of pivot points : 2
Panel mounting interface : 50 x 50,75 x 75,100 x 100
Product colour : Black
Screws included : Yes
Sustainability certificates : CE
Tilt adjustment : Yes
Tilt angle range : -20 - 105°
Turn angle : 180°
