

SONOS- ERA 100- White

DESCRIPTION

Featuring next-gen acoustics and new levels of connectivity, Era 100 transforms any room with the finely tuned stereo sound and rich bass your music deserves.

Superb sonic power

Next-gen acoustics bring your music to life with detailed stereo separation and deep bass at any volume.

Minor scale for major versatility

Place this speaker anywhere and everywhere you want to listen. The compact design fits beautifully on your bookshelf, kitchen counter, desk, or nightstand.

The best sound experience

Stream the highest-quality audio from anywhere in your home without interruptions from calls or notifications.

No missed connections

With the press of a button, you and your family and friends can stream directly from a paired Bluetooth device.

Unlock new listening possibilities

Connect a turntable, computer, or other audio source using an auxiliary cable and the Sonos Line-In Adapter.

Breeze through setup

Go from unboxing to unbelievable sound in just a few minutes. Simply plug in the power cable, connect your phone or tablet to WiFi, and open the Sonos app.

Music comes standard

Discover free music, original content, and thousands of live stations from around the world on Sonos Radio. Find it in the Sonos app as soon as you set up your system.

Tunes itself for you

With a tap in the Sonos app, Trueplay tuning technology analyses the unique acoustics of your space and optimises the speakers EQ. So all your content sounds just the way it should.

Your voice, your choice

Era 100 is designed for ease of listening and mind, with multiple ways to protect your privacy.

Privacy with a tap

Deactivate your voice assistants by tapping the speech bubble on top of the speaker. The light will also turn off. You will still have access to other mic-enabled features, like Trueplay.

Security with a switch

Make sure no one accidentally activates your voice assistant by toggling off the switch on the back of the speaker. This disconnects all power to the microphone hardware for added security.

Surround yourself in superior stereo

Experience an even wider soundstage and awe-inspiring sweet spot when you pair two speakers in the same room.

Responsible by design

Committed to listeners and the planet, Sonos is making sound decisions for a sustainable future.

Recycled plastics

In an effort to give materials a second life and minimise waste, Era 100 features 48% post consumer-recycled plastics.

Energy efficiency

Software efficiencies reduce power consumption when the speaker is playing audio and when its idle.

Eco packaging

Crafted from paper certified by the Forest Stewardship Council®, the exterior and interior packaging is 100% recyclable.

Customise your sound system

Mix and match products that fit all the places and ways you want to listen. Pair identical speakers for richer stereo sound, build a surround sound system for home theatre, and feel even more immersed when you add Sonos to every room.

TECHNICAL CHARACTERISTICS

Brand : SONOS

Part number : E10G1EU1

Haut-parleurs :

Tweeter : Y

Woofers : Y

Connectivité :

Bluetooth : Y

3.5 mm connector : Y

AC adapter frequency : 50-60 Hz

AC adapter input voltage : 100-240 V

AirPlay : Y

Amplifier class : D

AUX in : Y

Battery type : Built-in battery

Bluetooth version : 5.0

Built-in display : N

Built-in microphone : Y

Card reader integrated : N

Carrying handle(s) : N

Castor wheels : N

Connectivity technology : Wireless

Cord length : 2 m
Depth : 130.5 mm
Frequency range : 2.4 - 5 GHz
Height : 182.5 mm
Hook : N
LED indicators : Y
Mobile operating systems supported : Y
Number of speakers : 1
Number of tweeter drivers : 2
Product colour : Black
Product design : Cylinder
Product type : Stereo portable speaker
Protection features : Moisture resistant
Quantity per pack : 1 pc(s)
Quick start guide : Y
Recommended usage : Universal
USB charging port : Y
USB connectivity : Y
USB connector type : USB Type-C
Volume control : Touch
Weight : 2.02 kg
Width : 120 mm
Wi-Fi : Y
