

Usb extender over category 5- 60 m

DESCRIPTION

Main features:

This kit allows the extension of the connection between a USB device and your PC, up to 50 meters.

The connection is made by UTP RJ-45 cable (not included, please see the patch cables section)

The kit includes a transceiver module with RJ-45 Type A male connector and a receiver module with RJ-45 Type A female connector.

No software is needed to operate the kit, which is compatible with all USB-based operating systems (Windows/ Linux/ MacOS/ Unix)

Warning: the connected device can't be powered by the USB bus. A specific power adapter is required.
