

DACOMEX DisplayPort 1.2 to VGA active converter

DESCRIPTION

Dacomex Active DisplayPort 1.2 to VGA Converter

This converter will allow you to transfer the display from a DisplayPort source to a VGA display or projector. It will bring you superior image quality thanks to support for resolutions up to 1920 x 1200.

It is used with graphics cards broadcasting a "pure" DisplayPort signal for display on one or more screen(s) that do not have DisplayPort connectivity (Eyefinity® compatible). Typically, they only display the DP logo, instead of DP++.

Features :

- Resolution up to 1920 x 1200 at 60 Hz
- Multiple screen and AMD Eyefinity® compatible
- Bandwidth 10.8 Gbps
- Cord length: 9.5 cm
- Total length: 15 cm

TECHNICAL CHARACTERISTICS

Brand : DACOMEX

Part number : DAC-194015
