

DESCRIPTION

The PUC 2422 is an 220 cm pole and is a part of the modular Connect-it system with which you can create your own ceiling solution for small- to medium-sized displays. The PUC 2422 is equipped with a double cable duct system with which you can quickly and simply ensure that all cables are concealed. The pole is made of aluminum and, therefore, it can be easily cut at the required length. Therefore, combine a pole with one of the Connect-it ceiling plates and a Connect-it interface for a complete ceiling solution.
