

## DESCRIPTION

Easily transport and store your Bose L1 Pro16 portable line array system with the L1 Pro16 System Roller Bag. This soft, padded bag was designed specifically to carry the entire L1 Pro16 system, including the power stand, so you can have confidence that each component fits safely and securely and there's also extra room inside to carry microphones, cables, and more. The comfortable handle makes it easy to grab your system and get out the door and into your music in no time. And the built-in wheels give you the option to roll your L1 Pro16 when you're on the move.

## TECHNICAL CHARACTERISTICS
