

Screen Protector PRIVACY 15.6 W 16:9

DESCRIPTION

Discover the MOBILIS®-designed privacy filters that help keep your personal and sensitive data away from prying eyes. These privacy filters are compatible with any LCD or laptop screen. MOBILIS® uses a micro-louvre technology which therefore only allows the person working in front of their IT equipments screen to see the data on display. Those on either side of the screen can only see a black screen. From now on, you can use your computer in public places or on public transport with complete peace of mind and in total privacy. Where applicable, you can continue using your touchscreen. To meet your specific needs, there are two types of installation available: for screens with bezel (installation using hanger arms) or screens without bezel (installation using adhesive strips). For the best possible usability, this privacy filter also includes a matt anti-glare finish.

Effectively protects your onscreen data from prying eyes

Only the person in front of the screen can view the displayed data (side protection)

For laptops and PCs

Compatible with most touchscreens

Easy to install - removable and adjustable

Installation kit provided

(cleaning wipes/microfibre cloth/dust protection/easy-on and easy-off)

2 attachment systems: for screens with/without bezel

Reversible: glossy finish for improved clarity; matt finish to reduce glare and the appearance of fingerprints
