

Waterproof compact silicone keyboard/ mouse set

Black- USB

DESCRIPTION

Waterproof and washable keyboards meet the requirements of users who need to maintain a perfect hygiene in their working environment.

The compact silicone keyboard is the indispensable companion. The tight silicone shell prevents germs, liquids or dust to penetrate inside and contaminate the components. The keyboard can be cleaned by soapy water or disinfectant.

The compact design with embedded mouse functions make this keyboard the ideal peripheral for your computer, if you don't have much space.

The keyboard can be used in industrial or hospital environments. It complies with IP-68 standard and has multimedia keys and a power switch.
