

DESCRIPTION

With its high capacity of 27.000mAh, the XB403 Titan Ultra can easily fast-charge your USB-C laptop, MacBook, tablet, smartphone or e-reader. With a combined total output of 200W and the 140W USB-C PD single output, this Titan Ultra is the premium and most powerful Power Bank within the XB4 series.

Thanks to the integrated 240W USB-C PD cable, you are immediately ready to charge your devices, anytime, anywhere.

The perfect Power Bank for powerful laptops

The Titan Ultra features four powerful USB-C PD outputs with a total combined output of 200W. The two 140W USB-C PD ports are optimised to charge a MacBook, and any other powerful USB-C laptop, extra fast. With the two 30W USB-C PD outputs, you can easily charge a smartphone, tablet or any other portable device.

Extra-fast charging

Thanks to the 140W USB-C PD input, the Power Bank itself is fully charged and ready to use in less than 1.5 hours. The Titan Ultra Power Bank features pass-through charging, allowing it to simultaneously recharge itself and power other devices at the same time.

Suitable to take on the plane

The Titan Ultra Power Bank has a battery capacity of 27.000mAh. This makes this Power Bank suitable to carry in your hand luggage during air travel. Even on the longest air journeys, the Titan Ultra gives you enough power to energize all your mobile devices.

Design that feels good with (in)visible LED display

Design goes hand in hand with ease of use in the XB4 series. This is why we pay extra attention to details; a matte soft-touch finish, an integrated magnetic USB-C PD cable and an LED digital display that pops up only when you need it.

This LED display shows not only the battery status in percentage, but also the wattages of the four different outputs. When the display is off, it is completely invisible. This further enhances the Power Bank's design, keeping it sleek and minimalistic.

On the way to a sustainable future

A large part of the Titan Ultra is made of recycled plastic and therefore carries the GRS seal of approval. Most of the packaging consists of recycled cardboard with the FSC label. The plastic hook, weighing only 2 grams, is also made of completely recycled plastic. Xtorm products are made to last and this is how we fight the replacement market.

TECHNICAL CHARACTERISTICS

Brand : XTORM
Part number : XB403
Battery capacity : 27000 mAh
Battery charge time (USB) : 1.5 h
Built-in display : Yes
Built-in radio : No
Cables included : USB Type-C to USB Type-C
Charger compatibility : Mobile phone/Smartphone, Laptop/netbook, Tablet
Charging source : USB
Country of origin : China
Depth : 192 mm
Display type : LED
Fast charging : Yes
Height : 27 mm
Housing material : ABS, Polycarbonate (PC)
Input interface : USB Type-C
Number of simultaneously connected devices (max) : 4
Package depth : 227 mm
Package height : 255 mm
Package weight : 884 g
Package width : 124 mm
Port 1 output power : 140 W
Port 2 output power : 140 W
Port 3 output power : 30 W
Port 4 output power : 30 W
Product colour : Black
Shape : Rectangle
Total output power : 200 W
USB Power Delivery : Yes
USB Power Delivery up to : 140 W
USB Type-C connector : Yes
USB Type-C ports quantity : 4
Weight : 683 g
Width : 90 mm
