

Iiyama T1932MSC-B5X

DESCRIPTION

The ProLite T1932MSC-B5X 19» multi-touch screen is based on projected capacitive technology which thanks to a glass overlay covering the screen guarantees high durability, scratch-resistance and perfect picture performance. The touch function remains unaffected even if the glass is scratched. A solid and steady base supports the touchscreen with an adjustable stand offering full 90 degree positioning angles. Menu Buttons are located on the side of the screen which can be locked to prevent tampering and includes a handy function to deactivate the touchscreen for cleaning. In addition, the edge-to-edge glass design creates an eye-catching finish with high light transmission guaranteeing perfect picture clarity and brilliant colours. Available in black and white.

IPS

IPS technology offers higher contrast, darker blacks and much better viewing angles than standard TN technology. The screen will look good no matter what angle you look at it.

Scratch resistance

Scratch resistance is essential for touch solutions used in public places and schools. This is achieved thanks to a glass overlay covering the screen. It guarantees high durability of the touch function and even more importantly the touch function remains unaffected even if the glass is scratched.

Touch technology - Capacitive

This technology uses a sensor-grid of micro-fine wires integrated into the glass that covers the screen. Touch is detected because electrical characteristics of the sensor grid change when human finger is placed on the glass. Thanks to the glass overlay this technology is highly durable, and the touch function remains unaffected even if the glass is scratched. It offers perfect picture performance and will work with human finger (also latex gloved) and stylus-pen.

IP

The IP code classifies and rates the degree of protection against water intrusion. IP65 means that the monitor is protected to water splashes against the enclosure from any direction.

Speakers

This LED monitor is equipped with two high quality stereo speakers.

TECHNICAL CHARACTERISTICS

Brand : IIYAMA
Part number : T1932MSC-B5X
Screen size (») : 19
Screen format : 5/4
Slab type : IPS
Max. resolution : 1280 x 1024
Response time (ms) : 14
Max. vertical frequency (Hz) : 75
Touch screen : Yes
Physical specifications :
Loudspeakers : Yes
Pivot : No
Height-adjustable foot : No
Tilt : Yes
Rotation : No
Minimum VESA : 100 x 100
Connectors :
VGA input : Yes
DVI input : Yes
HDMI input : No
Display Port input : No
Mini Display Port input : No
USB input : Yes
Thunderbolt input : No
