

DESCRIPTION

Combining design and functionality for ergonomic impact

Take a proactive approach to your health at work with a centered mouse that allows you to do desk work comfortably and ergonomically. With the RollerMouse Pro, you control everything; cursor navigation, programmable buttons and a large scroll wheel are all centralized right in front of you. We have built it like this to prevent you from stretching, twisting and straining.

It is seamless to customize it to match your personal preferences with the magnetic wrist rests that come in different sizes and materials. RollerMouse Pro is designed and developed in Scandinavia in collaboration with ergonomic experts. You can see the Nordic characteristics in the minimalistic approach that unites functionality with the aesthetic.

Two hands are better than one

With a centered mouse, your arms are placed in a natural position in front of your body. This removes tension on shoulders, arms, and elbows, giving you a more comfortable and ergonomic working position. It allows for variation, as you can use your right and left hand for cursor navigation while controlling the clickable Rollerbar with a slight touch of the fingertips. Simply put, you have all functions within reach.

Individual needs, individual solutions

Customize your RollerMouse Pro to your personal preferences with the unique magnetic wrist rests, allowing you to easily change between the various models. Choose between vegan leather, fabric, or natural Bamboo in three different sizes. The vegan leather version has an antibacterial surface and highest alcohol resistance for improved hygiene. It is easy to change click sounds, cursor speed and click resistance, finding the setup that works best for you.

Plug & Play installation

Connect the RollerMouse Pro to your PC or Mac via Bluetooth, the USB receiver or cable depending on your preferred method. Fits both full-width and compact keyboards. Control multiple screens and customize the programmable buttons to your favourite shortcut functions.

TECHNICAL CHARACTERISTICS

Brand : CONTOUR DESIGN

Part number : CDRMPRO10310

Puissance :

Rechargeable : Yes
Ergonomie :
Plug and Play : Yes
Battery capacity : 2000 mAh
Battery technology : Lithium
Battery type : Built-in battery
Button functions : DPI switch, Double click
Buttons quantity : 6
Buttons type : Pressed buttons
Customizable movement resolution : Yes
Depth : 425 mm
Device interface : RF Wireless + Bluetooth + USB Type-A
Ergonomic design : Yes
Form factor : Ambidextrous
Frequency band : 2.4 GHz
Height : 23 mm
Mac operating systems supported : Yes
Master (outer) case gross weight : 11.5 kg
Master (outer) case height : 235 mm
Master (outer) case length : 484 mm
Master (outer) case width : 415 mm
Material : Plastic, Vegan leather
Movement detection technology : Rollerbar
Movement resolution : 2800 DPI
Number of movement resolution modes : 10
Number of programmable buttons : 6
Number of risers : 2
Number of scroll wheels : 1
On/off switch : Yes
Package depth : 484 mm
Package height : 235 mm
Package weight : 960 g
Package width : 415 mm
Post-consumer recycled plastic : 100%
Power source : Batteries/Cable
Product colour : Black
Products per master (outer) case : 10 pc(s)
Programmable mouse buttons : Yes
Purpose : Office
Quantity : 1
Receiver included : Yes
Scroll type : Wheel
Scrolling directions : Vertical
Service life of battery : 3 month(s)
Surface coloration : Monochromatic
Sustainability certificates : CE, Federal Communications Commission (FCC)
Sustainability compliance : Yes
Weight : 680 g
Width : 152 mm
Windows operating systems supported : Yes
Wireless receiver interface : USB Type-A
Wrist rest : Yes
