

DESCRIPTION

The PLANET POE-2400G PoE injector hub supports 24 ports that can supply the power to 24 IEEE802.3af devices over RJ-45 cable.

The management functions provide an easy way to allocate the power supply following a priority rule of 1 to 4.

Product features:

- 24 x RJ-45 Gigabit input ports
- 24 x RJ-45 Gigabit output ports with PoE+ function/802.3af/at - MidSpan (pin 4/5/7/8)
- Supports 1 x RJ-45 port dedicated to the web management (192.168.0.100 - admin/admin)
- Output power: 48 V (15.4 W/ 350mA)
- Each PoE output port can supply up to 30.8W
- Total power budget: 440W
- Web-based configuration via Outband port
- 19"-rackmount/ 1U
- Internal power supply: 100~240 V

TECHNICAL CHARACTERISTICS

Brand : PLANET

Part number : POE-2400G
