

MINKELS COVER PAN SIDE AP D1200-H42 BK

DESCRIPTION

Horizontally split side panel for end-of-row applications

The powder coated horizontally split side panel is especially used for so-called end-of-row applications. It consists of a bottom and top panel, and a middle support beam. The lower side panel is supported by the frame. The top side panel is supported by the middle beam. Due to the fact the side closure comes horizontally split, it ensures easy handling. The panels also feature quarter turn locks that automatically guarantee an earthing connection to the frame once locked.

TECHNICAL CHARACTERISTICS

Brand : MINKELS

Part number : A0001-001242-900-1

Caractéristiques :

Type : Side panel

Depth : 1200 mm

Harmonized System (HS) code : 85389099

Product colour : Black

Quantity per pack : 1 pc(s)

Rack capacity : 42U
