

DACOMEX Vertical Mouse V250-WBT-G Wireless GRS certified

DESCRIPTION

Dual 2.4 GHz & Bluetooth connection!

Design - Dacomex attaches particular care to the design of its products. On this model, the result is remarkably high-end with a profiled line and a very high-quality and pleasant feel.

Ecology: this mouse is designed with 50% recycled materials!

Comfort of use - Thanks to its sculpted shape, handling is quick and intuitive. Wireless, nothing hinders freedom of movement. Its 5 easy-to-reach buttons allow natural placement of the fingers without any contortion and therefore simple use. Added to this a non-slip and precise wheel, everything has been designed for uncompromising comfort of use.

Features - Bluetooth connection or 2.4 GHz radio? No more need to choose: a simple action via a button under the mouse allows you to switch from one connection to another. In addition, its integrated battery will make you forget the heavy hassle of battery replacement!

Many users, including doctors recommend the use of vertical mice for superior comfort and relief from wrist pain.
