

## DESCRIPTION

This universal phone case with a clamp allows you to keep your device within reach and still be able to attach/detach it easily. You can use the buttons and camera without having to remove your device from the holder. It is compatible with devices between 5 and 7 inches with or without a protective case. It can be attached to the pocket of a blouse or trousers at waist level, so you have quick access to your device.

The clip is equipped with an anti-reverse system for a better hold on clothes and the silicone holder is rotatable by 90°. You can use it in portrait or landscape mode (only 90° on each side).
