

## Warranty+3 Product 04, WEB

*Powering Business Worldwide*

### DESCRIPTION

#### **Extend your warranty by one or three additional years**

These services cover both electronic parts and batteries, and offer you peace of mind for an additional one or three years on top of the standard warranty for a product.

During the extended period, the warranty coverage includes:

- A standard UPS replacement
- Shipping costs
- Access to a professional helpline during working hours

Eaton Extended Warranties can be bought only during a standard or extended warranty period.

The services are renewable within up to seven years of total warranty coverage, including the standard warranty period.
