

DESCRIPTION

This series of SFP modules was designed for single-mode fiber links. The modules are hot-swappable, according to the Multisource Agreement (MSA) standards, they are hot-swappable. The modules operate at 1310nm and can transmit to 20 km over 9/125µm single-mode fiber.

Product features:

- Signal: 100FX single-mode/ 1310nm @ 20 km
- Supported temperature in operation: 0-50°C
- Compatible with 9/125µm fiber

TECHNICAL CHARACTERISTICS

Brand : PLANET
Part number : MFB-F20
