

DESCRIPTION

PLANET ISW-801T switch

8 x 10/100Mbps industrial switch. It is a very sturdy device which can be used in industrial environments and outdoors. It will operate in extreme temperatures.

Specifications :

- 8 x 10/100Mbps ports
- Backplane: 1.6Gbps
- Can be powered by 6-pin terminal block (redundant with alarm)
- Voltage: 12 - 48V DC
- Power: 11,6 Watts
- IP30-rated aluminum housing
- Operation temperature : -40°C to +75°C
- Installation : by 35-DIN rail / fixing plate
- Dimensions: 135x87x32mm - 454g

It is a very sturdy device which can be used in industrial environments and outdoors. It will operate in extreme temperatures.

Specifications :

- 4 x 100Mbps Auto-MDiX RJ-45 ports
- 2 x 100FX Duplex SC fiber ports
- Fiber signal : 100FX 1310nm
- Operation : Multimode 50/125µm / 62.5/125µm (2km max)
- Twisted pair transmission over RJ45 ports : 10/20Mbps in Half/Full-Duplex, 100/200Mbps in Half/Full Duplex
- Fiber transmission : 200Mbps in Full-Duplex
- IP30-rated
- Operation temperature : -40° to +75°
- Humidity supported: 5 to 90%
- 2 fixing kits included: Wallmount installation or 35-mm DIN rail installation
- Can be powered by terminal block: 2 x 12 - 48V inputs/ alarm output
- Protection : Ethernet 6KV DC / Alimentation 6KV DC / Reversed polarity

- Power consumption : 16 watts max
- Dimensions : 135 x 97 x 32 mm - 438g

TECHNICAL CHARACTERISTICS

Brand : PLANET

Part number : ISW-801T
