

DESCRIPTION

With this MOBILIS® stylus, you can write, draw and navigate with great fluidity and writing sensitivity. Its tip (1.45mm) allows precise and continuous movements.

This pen also works if your tablet is fitted with a protective screen. Thanks to its slim and lightweight design, it's comfortable and easy to hold. To switch your pen on and off, simply tap twice on the end of the pen. The pen is ready to use straight away, so there's no need to connect it to your tablet.

It has a battery life of 10 hours (continuous use) after recharging in just 40 minutes (USB A / USB C cable supplied). 3 indicator lights show the battery level. The pen automatically goes into standby mode after 15 minutes of inactivity.

To extend the life of your stylus, a spare kit (tip + lead) is included. Thanks to a magnetic system, it can be attached to the side of an iPad.

TECHNICAL CHARACTERISTICS

Brand : MOBILIS

Part number : 001090

Battery life : 10 h

Brand compatibility : Universal

Device compatibility : Tablet

Package depth : 25 mm

Package height : 175 mm

Package weight : 8 g

Package width : 55 mm

Product colour : Black

Quantity per pack : 1 pc(s)

Warranty period : 1 year(s)
