

## DESCRIPTION

This SFP transceiver module is very resistant. It can be used within -40 to 75°C temperature range.

Specifications:

- LC Duplex connector
- Compatible with IEEE802.3u 100Base-FX @125Mbps
- Maximum transmission distance: 20 km over single mode fiber (9/125µm, OS1/OS2)
- Wavelength: 1310nm - 125Mbps
- Operating temperature : -40 to +75°C
- Can be installed outdoors, since it is protected by a housing
