

DESCRIPTION

Power at your fingertips

Available in a choice of four screen sizes, these tablets are a stylish addition to boardrooms, huddle spaces, meeting rooms and reception areas and make it easy to control signage applications. The 7 and 10 make perfect partners for room booking and meeting room management, while the 15 and 22 are ideally matched for virtual reception applications.

Each durably styled tablet features a powerful processor and capacitive touchscreen to assure smooth, 24/7 responsive operation. There's a wide range of networking options, and power over Ethernet (7, 10 and 15 models) simplifies installation with no need for AC power outlets and additional cabling.

Simple installation

No AC power outlets and standard VESA for wall-mounts.

Clear, bright screen

The tablet's high-quality IPS panel offers a crisp, clear view of meeting information.

Reliable 24/7 operation

This commercial-grade Android tablet is optimised for the rigours of corporate and B2B applications, allowing reliable 24/7 operation.

Speedy, responsive operation

The tablet's powerful processor ensures smooth, responsive operation.

Multi-point capacitive touchscreen

The high-quality touch-enabled display supports multi-touch operation, allowing extra flexibility in gestural control.

Versatile connectivity options

Connect to corporate networks via LAN or Wi-Fi. Use the USB port to install applications or perform system updates.

Power over Ethernet

Support for PoE (Power over Ethernet) simplifies installation and reduces additional cabling requirements.*

*All tablets support PoE except the TEB-22DSK.

Flexible VESA mounting

Integral VESA mounting hardware simplifies secure, permanent installation on a wall or desktop.

RFID identification

Integrate the RFID reader accessory (TEB-RFID) for identification control. A swipe of an NFC tag or card is processed instantly
