

LocknCharge Putnam 8 Mk2 Pre-wired (Lightning) Charging Station for 8 devices

DESCRIPTION

Lightning cables included

Designed to charge, store, and secure up to 8 iPads or iPhones, the Putnam charging station features coloured LED indicators to show the charging status of your devices.

Benefits:

- Charge up to 8 devices simultaneously
- External charging status indicators
- Mechanical combination lock
- Equipped with 8 MFi-certified Lightning cables by default
- Welded steel construction
- Robust warranty

Smarter features:

- External charging status display: The LED display screens use colour codes to easily show whether devices are charging (red) or ready to use (green).
- Compatibility: Although specifically designed for iPads and iPhones, the Putnam charging cabinet also works with other Micro USB tablets. Additionally, the slot dimensions have been optimised to accommodate most cases and protective covers.
- Robust: With its welded steel construction and mechanical combination lock, this charging station for tablets and iPads offers a very high level of security.
- Connected by default: The Putnam iPad charging station comes equipped with 8 MFi-certified Lightning cables by default, providing all the connectivity needed to charge and secure your Apple devices.
- Lightweight and compact: The Putnam charging cabinet can be easily installed on the floor, wall, or desk. To save even more space, it can be mounted on the wall using the optional wall mounting kit.
- Stackable: Putnam charging stations can be stacked on top of each other if you need additional charging slots.
- No keys required: Thanks to the integrated mechanical combination lock, no keys are needed. Additionally, the charging station includes an administrator override key in case the combination is forgotten.
- Efficient charging: With a charging intensity of 2.4 A per port, the Putnam charging station can charge up to 8 devices simultaneously.
- With or without cases and covers: The slot dimensions of the Putnam 8 have been optimised to accommodate most devices with their cases and protective covers.

-Robust warranty: LocknCharge products are built to last, even under the most extreme usage conditions.

Technical Specifications of the Putnam 8:

- External product dimensions Putnam 8: 375 mm (L) x 311 mm (W) x 378 mm (H) 11.3 kg
- Slot dimensions: 215 mm (L) x 274 mm (W) x 31 mm (H)

(Subject to compatibility with certain devices. Please contact us for more information and compatibility).

TECHNICAL CHARACTERISTICS

Brand : LOCKNCHARGE
Part number : LNC10178
Design :
Type : Freestanding
Depth : 354 mm
Height : 378 mm
LED indicators : Charging
Locking : Y
Number of devices supported : 8
Output current : 2.4 A
Product colour : Black, White
Weight : 10 kg
Width : 311 mm
