

DACOMEX perl binaural headset gooseneck noise cancel

DESCRIPTION

Stereo headset for call center telephone for professional use (+4h/day)

The Dacomex PERLE headset is equipped with a flexible boom with a dual microphone system anti-noise incorporating an anti-static protection device guaranteeing extreme sensitivity and high audio quality even in noisy environments.

The boom rotates 330° to choose the side where you want to position the microphone, and its headband is flexible and is finished with a comfortable pad.

The headphones comply with the international hearing protection standard while offering superb sound clarity, they are covered with soft imitation leather ear cushions to increase user comfort.

The DACOMEX PERLE headset is delivered as standard with its RJ9 connection cord to plug it in place of the traditional handset or into the telephone's headset port. No cables to add to be operational.

This cord incorporates the "Quick Disconnect" device allowing you to unplug your headset and put it away at the end of the day, or to connect it to other devices using the optional adapter cords (PC to USB, Smartphone to Jack, etc.). .)

Most produced:

- Desk phone headset, replaces or complements the device's original handset
- Allows complete hands-free use
- Delivered as standard with its RJ9 cord - Quick Disconnect, no other cable to add!
