

Network mini switch- 5 x 10/100 RJ45 ports- USB powered

DESCRIPTION

Small size Ethernet hub providing additional network connectors.
Even if you don't have AC outlets at a close distance, you will be able to power in the switch via one USB port of your computer.
All RJ45 ports support Auto MDIX function, use any RJ45 crossover or straight cable.
The RJ45 ports are located on each side of the module, allowing cable installation optimization.

- Specifications :
- 5 x 10/100 Nway RJ45 ports
 - Half and Full duplex on each port (up to 200Mbps)
 - Supports Auto-MDiX
 - Extra small dimensions : 62 x 79 x 21mm
 - Activity LED on each port + Power Led
 - Powered by USB cord or 230~5V 0,8A power supply
 - Comes with magnetic feet

TECHNICAL CHARACTERISTICS

Brand : DEXLAN
Part number : DEX-320105
Main features :
Network standard : 10/100 Mbps
ODI Model Layer : Unmanaged
Management : No
Operating environment : Soho
Industrial : No
Rackmount : No
PoE function : No
Power supply : Optional power adapter
Mounting system : Wallmounted+ magnets
Connectors :
Total number of ports : 5

Number of RJ-45 ports : 5
Number of fiber ports : 0
RJ-45 patch cords :
Number of 10/100 ports : 5
PoE data :
PoE standard : -
Dimensions :
Length (mm) : 21
Width (mm) : 62
Height (mm) : 79
