

# EKIVALAN Pair of vertical cable glands (L / R) 32U metal with door, black

## DESCRIPTION

## TECHNICAL CHARACTERISTICS

|                                                           |
|-----------------------------------------------------------|
| Brand : EKIVALAN                                          |
| Part number : BEACCVCM32UBL                               |
| Caractéristiques :                                        |
| Type : Cable duct                                         |
| Certification : EN 61587-1:2012 IEC 297-1 EN 60950-1:2006 |
| Mounting kit : Y                                          |
| Product colour : Black                                    |
| Rack capacity : 32U                                       |
| Sustainability certificates : RoHS                        |
| Width : 800 mm                                            |
