

CONTOUR DESIGN Centred mouse SliderMouse Pro wired slim

DESCRIPTION

Ergonomic results and crisp design with navigation bar

The SliderMouse Pro is a centered mouse that allows you to do desk work in comfortable, ergonomic positions - even without stretching, twisting and straining. Our new cursor navigation with the intuitive mechanical navigation bar is integrated on top of the SliderMouse Pro, allowing your hands the freedom to rest snugly on the entire width of the mouse. To make it your own, we have made it seamless to design it to match your preferences with magnetic wrist rests in various sizes and materials. SliderMouse Pro is designed and developed in Scandinavia in collaboration with ergonomic experts. It is a product inspired by the Nordics, which you can see in the minimalistic approach that unites functionality with the aesthetic.

Two hands are better than one

With a centered mouse, your arms are placed in a natural position in front of your body. This removes tension on shoulders, arms, and elbows, giving you a more comfortable and ergonomic working position. It allows for variation, as you can use your right and left hand for cursor navigation while controlling the clickable Rollerbar with a slight touch of the fingertips. Simply put, you have all functions within reach.

Individual needs, individual solutions

Customize your SliderMouse Pro to your personal preferences with the unique magnetic wrist rests, allowing you to easily change between the various models. Choose between vegan leather, fabric, or natural Bamboo in three different sizes. The vegan leather version has an antibacterial surface and highest alcohol resistance for improved hygiene. It is easy to change click sounds, cursor speed and click resistance, finding the setup that works best for you.

Easy installation

Connect the SliderMouse Pro to your PC or Mac via Bluetooth, the USB receiver or cable, depending on your preferred method. Suitable for any keyboard size. Control multiple screens and customize the programmable buttons to your favourite shortcut functions.

TECHNICAL CHARACTERISTICS

Brand : CONTOUR DESIGN

Part number : CDSMPRO20110

Button functions : DPI switch, Double click

Buttons quantity : 6

Buttons type : Pressed buttons
Customizable movement resolution : Yes
Depth : 382 mm
Device interface : USB Type-A
Ergonomic design : Yes
Form factor : Ambidextrous
Height : 23 mm
Mac operating systems supported : Yes
Master (outer) case gross weight : 10 kg
Master (outer) case height : 235 mm
Master (outer) case length : 442 mm
Master (outer) case width : 356 mm
Material : Plastic, Vegan leather
Movement detection technology : Rollerbar
Movement resolution : 2800 DPI
Number of movement resolution modes : 10
Number of programmable buttons : 6
Number of risers : 2
Number of scroll wheels : 1
Package depth : 416 mm
Package height : 42 mm
Package weight : 840 g
Package width : 167 mm
Post-consumer recycled plastic : 100%
Power source : Cable
Product colour : Black
Products per master (outer) case : 10 pc(s)
Programmable mouse buttons : Yes
Purpose : Office
Quantity : 1
Scroll type : Wheel
Scrolling directions : Vertical
Surface coloration : Monochromatic
Sustainability certificates : CE, Federal Communications Commission (FCC)
Sustainability compliance : Yes
Weight : 620 g
Width : 123 mm
Windows operating systems supported : Yes
Wrist rest : Yes
