

DESCRIPTION

Reliable high-quality evidence with HD video and audio recording

Enjoy peace of mind while on duty. The Philips VideoTracer Body-Worn Recorder will protect you in case the unexpected happens. Rely on excellent video and audio performance to provide you with crystal clear evidence when you need it.

Full-HD 1080p recording to capture important details

Rely on excellent video and audio performance to provide you with crystal clear evidence when you need it. With its full HD 1080p video capabilities, the Philips VideoTracer captures video in sharp and vivid detail. The snapshot feature allows you to capture photos while recording video. With the audio-only feature you can record notes.

170° wide angle coverage for a more complete picture of any incident

Capture more of the scene with a proven 170 degree wide angle lens giving you a more complete picture of any incident. The built-in laser pointer assists you to locate the recording area without looking at the screen.

Night-vision mode to capture a sharp, high-quality recording in low-light conditions

Built-in night vision with 6 infrared LEDs allows you to capture sharp video even at night. LED indicators, (optional) audio and vibration alerts will notify you when recording has started or stopped.

Motion sensor, pre- and post record function for never missing a recording

The pre-recording function allows you to spontaneously record important parts of an incident. Post-recording ensures that you never miss a moment even after you stop recording. Motion detection starts video recording automatically when any object enters the field of view. Once the object comes out of the coverage range, the recording stops and the file is saved.

Water mark with date, time and ID and GPS for reliable video evidence

A water mark with a unique user ID, a time and date stamp can be embedded into the video for reliable evidence. Built-in GPS allows you to track your location.

Rechargeable li-polymer battery for extra-long recording

The high-capacity Li-polymer battery can be easily charged through a standard micro USB port. This guarantees extended battery life for extra-long recording ensuring that your recorder will always be ready to work when you are.

2» LCD screen allows instant video playback

The recorder features a 2.0 inch (5.1 cm) LCD screen and a built-in speaker allowing you to instantly playback captured still images and recorded audio and video files. For playback on a larger screen, the VideoTracer has a micro HDMI output port and AV output port for connecting to standard and HDTV television sets.

MicroSD memory card slot for virtually unlimited recording

Virtually unlimited recording and storage capacity thanks to a microSD memory card slot supporting up to 128 GB of memory.

Robust and water-resistant design for extra durability

Its durable and IP67-rated water- and dust-resistant design creates a robust shell around the device. Ergonomically placed keys allow for convenient, quick and direct access to the most important functions.

TECHNICAL CHARACTERISTICS

Brand : PHILIPS
Part number : DVT3120/00
Connectivity technology : Wired
Depth : 340 mm
Height : 910 mm
Housing colour : Grey
International Protection (IP) code : IP67
LED type : IR
Mounting type : Clamp
Night vision : Y
Night vision distance : 6 m
Number of illumination LEDs : 6
Storage temperature (T-T) : -5 - 45 °C
Viewing angle, horizontal : 170°
Weight : 180 g
Width : 610 mm
