

DESCRIPTION

Daker Dk - Conventional UPS - single phase on-line double conversion VFI

- The main parameters of the UPS, including the battery charge level and faults, are displayed on the LCD screen on the front panel
- The integrated communication software not only controls the UPS and its switch-off if there is a malfunction, and enables the user to test the main functions remotely, communicate via SNMP/Internet/network adaptor and access the functions of the UPS via the Internet, but can also send the user an SMS if specific events occur
- The internal extension connector enables a WEB/SNMP card or a relay interface to be installed which provides insulated contacts for applications on industrial control panels or remote alarm panels
- If there is an electronic fault, overload, overheating or for scheduled maintenance operations, the automatic or manual (optional) bypass ensures continuity of the power supply for critical loads
- A bypass switch is available for maintenance

Miscellaneous accessories

- External manual bypass (for Daker DK 1000-2000-3000)

TECHNICAL CHARACTERISTICS

Brand : LEGRAND

Part number : 310953

Compatibility : Daker DK 1000-2000-3000

Product colour : Black

Product type : Bypass switch

Quantity : 1

Weight : 5.29 kg
