

DESCRIPTION

Wear it well

You're answering questions, joining meetings, helping customers but long days don't have to feel that way. When you need to wear a headset for hours, the Blackwire 5200 Series is the one for you. Ergonomically designed, it's comfortable enough to wear all day even on the longest calls. And you get the freedom to plug into the compatible device of your choice with 3.5mm connectivity.

Built for Compatibility

All Poly USB headsets and personal speakerphones are compatible with the most popular voice platforms we just work. Poly solutions provide excellent audio quality for both you and those on the other end of the call no matter your platform of choice.

Connectivity options

Manage your PC calls using USB or USB-C, or plug directly into your smartphone or tablet with the 3.5 mm connection.

Comfort and durability

Ultra-soft leatherette ear cushions (Blackwire 5220) wrapped around pillow-soft memory foam provide all-day comfort. A lightweight cushioned metal headband offers durability and a comfortable custom fit.

Wearing style choice

Two wearing styles are available: hi-fi stereo (Blackwire 5220) for those who want a richer, immersive experience, or monaural (Blackwire 5210) design for those who prefer to leave one ear open.

Simple call management

Use the intuitive inline controls to answer/end calls, control volume, and mute to simplify call management. Conveniently placed audio and visual alerts provide helpful but unobtrusive user call, mute, and volume status.

Outstanding audio quality

Clear, natural and rich audio with wideband audio and noise-canceling microphone along with enhanced digital signal processing (DSP).

Dynamic EQ

A dynamic EQ feature optimizes the quality of your voice on calls, and automatically adjusts the EQ settings when you want hi-fit sound for listening to music or for multimedia playback.

Rapid deployment, future ready

Easy installation and UC Toolkit resources make IT deployment and management painless, while upgradable firmware and software ensure compatibility and feature support.

TECHNICAL CHARACTERISTICS

Brand : HP

Part number : 8X231AA

Connectivité :

Bluetooth : No

3.5 mm connector : Yes

Connectivity technology : Wired

Ear coupling : Supraaural

Harmonized System (HS) code : 85183000

Headphone frequency : 20 - 20000 Hz

Headset type : Binaural

Microphone mute : Yes
