

Nano - Slim Twin Rotating security lock - 1 x T lock / 1 x

DESCRIPTION

Because it is important to protect your laptop against theft, MOBILIS® has created this steel security cable which can protect two devices at the same time. In fact, it includes a twin security lock. You can therefore protect two computers at the same time. The lock is supplied with two keys. This security cable is compatible with computers that have a standard security slot (7x3 mm) but also those equipped with a MOBILIS®-designed Security Slot (optional extra, reference 001229). Additionally, this security cable is compatible with the MOBILIS® Master Key, which can unlock all your computer equipment's cables (Master Key, reference 001339, not included). This cable, which is the must-have accessory for an open-plan environment, protects your equipment wherever you are and can withstand up to one tonne of pressure.

TECHNICAL CHARACTERISTICS

Brand : MOBILIS
Part number : 001331
Best uses : Notebook
Cable diameter : 4 mm
Cable length : 1.8 m
Easy storage : Y
Easy to use : Y
Harmonized System (HS) code : 83014090
Keys quantity : 3 keys
Lock type : Key
Material : Steel
Product colour : White
Quantity per pack : 1 pc(s)
