

DESCRIPTION

The only professional dictation headset with a precision microphone and lossless audio transmission

Philips SpeechOne Wireless Dictation Headset has been specially designed to match the needs of users who frequently use dictation or speech recognition to create documents. The premium decoupled microphone offers crystal-clear recordings, perfect for accurate transcriptions. Ultra-comfortable and ergonomic design, personalized wearing options and hygienic exchangeable cushions make the headset the perfect work companion in both hospitals and offices alike.

Studio-quality microphone

The professional microphone guarantees accurate speech recognition results and transcriptions, even in noisy environments.

- Decoupled microphone for crystal-clear recordings
- Designed for dictation and speech recognition
- Triple layer noise-reduction filter

Lossless wireless transmission

Move away from your workstation and still record wirelessly in superior quality compared to Bluetooth and DECT.

- 100% lossless audio transmission
- 5 meters / 16 feet wireless range
- Audible notification when moving out of wireless range

Maximum wearing comfort

The modern ergonomic design ensures comfortable working, even after many hours of use.

- 360 degree rotating boom arm
- Wearable on the left or right ear
- Exchangeable, magnetic ear and head cushions

All-day battery life

Benefit from a high-performance battery which lasts the entire work day.

- Up to 12 hours of recording time
- 80% charge after 60 min
- Docking Station for wireless charging

Less interruption, more productivity

Reclaim control over your availability by clearly signifying to colleagues whether you are available or busy.

- Automatically turns red when recording or in a call
- Change your status manually via the Docking Station
- Flexible click on/off magnetic mounting

Ultimate comfort, maximum hygiene

If you share a device with other authors, you can each have your own personal cushions.

- Exchangeable, magnetic ear and head cushions
- Antimicrobial boom and remote control
- Inhibits the ability of microorganisms to grow

Take full control

The ergonomic remote allows you to conveniently control your recording application. The keys are freely configurable and can be personalized for any user and application.

- Convenient application control
- Start, pause and stop recording
- Touch sensor for integrated mouse function

Crystal-clear web calls and online meetings

Communicate comfortably via your favorite VoIP providers in crystal-clear audio quality without any additional installations.

- Works with Skype for Business and most VoIP apps
- Accept or reject Skype calls via headset and Docking Station
- Adjust volume using the scroll wheel on the headset

TECHNICAL CHARACTERISTICS

Brand : PHILIPS

Part number : PSM6300/00

Accessories included : Status Light, Neckband, Headband attachment, Magnetic ear cushion, 2 magnetic head cushions

Battery capacity : 360 mAh

Battery recharge time : 2 h

Battery technology : Lithium Polymer (LiPo)

Built-in microphone : Y

Built-in speaker(s) : Y

Cables included : USB

Connectivity technology : Wireless

Depth : 150 mm

Docking station included : Y

FM radio : N

Frequency range : 150 - 15000 Hz

Height : 140 mm

Loudspeaker diameter : 2.3 cm

Mac operating systems supported : Y

Microphone direction type : Unidirectional

Number of built-in speakers : 1
Operating temperature (T-T) : 5 - 45 °C
Output power : 200 mW
Product colour : Black
Quick start guide : Y
Recording battery life : 12 h
Remotely operated : Y
Signal-to-Noise Ratio (SNR) : 70 dB
Standby time : 100 h
Storage temperature (T-T) : 10 - 90 °C
Sustainability certificates : RoHS
Weight : 81 g
Width : 155 mm
Windows operating systems supported : Y
