

DESCRIPTION

This 100FX fiber module can be connected to a media converter over SFP slot.

The module can operate in extreme conditions, while keeping the performance. This is the reason why we recommend it for industrial switches.

Product features:

- Fiber optics port : LC Duplex.
- Compatible with IEEE 802.3u 100Base-FX 125Mbps standards
- Connection distance : Multimode - 2kms / fiber 62.5/125
- Wavelength : 1310nm - 125Mbps
- Operating temperature range : -40°C to +75°C (housing)

Note

The module operates only over SFP slot in a Fast Ethernet (100FX) configuration only.

TECHNICAL CHARACTERISTICS

Brand : PLANET
Part number : MFB-TFX
